

Invite to join The DPIS Global Network as a Foundation,
Practitioner, Corporate Member

The Data Privacy/Data Protection, and Information Security (DPIS)
Network for Global GRC, GDPR, CCPA, Professionals,
Companies and Vendors.

The focus of The DPIS Global Network is to strengthen the customised Data and IT roadmap and framework with the help of IT Governance, Risk Management and Compliance structures. Data and IT components are at the core concerns to corporates, management, professionals, and every global organisation. Therefore the DPIS Global Network, as a peer to peer community, will help, guide and inform the Data Privacy Professionals, Companies, Corporates and IT and Data vendors to relate to the global implementation, execution, monitoring and compliance to regulations surrounding data- privacy, protection and IT Security.

As a DPIS member, you can get the right support, contact and network if you are dealing with global Data Privacy, Data Protection, IT- or cybersecurity data for Corporates, DPOs, Heads of Compliance, CTOs, CISOs, CxO, CIOs, IT vendors- and organisations.

As a global and local peer to peer community, we will organise events, webinars, workshops and communication forum to focus on compliance-related issues; Data and IT Breach, Cybersecurity, Accountability, Transparency, GDPR and other Global Data Protection Laws, Mapping and Maturity Assessments, Risk Intelligence, Breach Management, Due Diligence, ISO27001 remediation, ISO 27701-2 Certification, IT Governance, including the management of new technologies, transformation, tools, service, and product selection.
